

## CHICKEN SOUP FOR THE PET LOVER'S SOUL

**Pet Quarters** has been expanding it's dog and cat food brands in the past many months. The latest addition is [Chicken Soup For The Pet Lover's Soul](#). We are stocking dry and canned products for both cats and dogs. Cat formulas include kitten, adult cat, a light food, and a senior hairball formula. Adult dog foods cover regular sized dogs, large breeds, a light and a senior dog formula.

Adding yet another great brand of food to our selection leaves our customers asking which is the [BEST FOOD](#). The [BEST FOOD](#) is the one that addresses your pet's needs. Customers must consider overall health issues, and problems with ingredient allergies. We hear about many pets allergic to beef, chicken, wheat or dairy. Other considerations include dry skin, weight concerns, and digestive problems for pets with sensitive stomachs. All in all, we are bound to have something to address your pet concerns and satisfy their appetites.

Brand Dog and Cat Foods

## Dogs And Tennis Balls

Dogs love tennis balls. Unfortunately, real everyday tennis balls are not good for dogs. The rough surface of a tennis ball is abrasive and literally sands the enamel off of your dog's teeth! Tennis balls sold at **Pet Quarters** are covered in a different type of fabric that does not harm tooth enamel. We have different brands in stock. There are different sizes and flavors. Some are plain, some mint or peanut butter. The KONG company also makes different shaped toys coated in this safe tennis ball fabric to attract your dog to play. Check out these toys the next time you shop.

# Spring Cleaning

With spring arriving, many of our customers look forward to doing a good job catching up on grooming dogs and cats. We have many quality grooming items including shampoos and tools.

Spring triggers shedding on a large scale, and there are some

tools we sell to help deal with this problem. For pets with double coats, using an inner coat rake easily helps remove that dense inner fur. These rakes are made with a choice of long or short rake teeth, and single or double rows of teeth. A nice feature of these rakes is that they are fitted with an ergonomically designed handle for comfort.

For shorter haired dogs and cats, using a shed'n blade tool, originally made for use on horses, does an amazing job. Using this tool like a carrot peeler makes hair/fur come right off. You begin from the neck to the tail, and from the back down.

## Be Prepared For Skunks!

Warmer weather brings out the skunks! If you have ever had a pet sprayed by a skunk before, you know what an unpleasant experience this can be. The scent stings eyes, and the odor is nasty.

We sell three brands of product to help with de-odorizing your pet. Ideally, they are used immediately after the skunking incident. All three work well and are environmentally safe.

Nature's Miracle skunk odor remover.

Natural Chemistry Skunks etc.

Synergy Labs De-Skunk.

*The owners and staff at Pet Quarters want to thank you for shopping in our stores. Please call or e-mail us with suggestions for improvement.*
